PERFORMANCE OPTIONS THAT CHANGE THE FEEL OF THE GAME

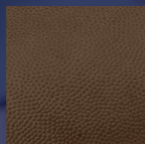

Every component is engineered for grip, control, and consistency.

LEATHER

PLAYOFF

Dark rich brown color and our softest choice. Feels like your favorite ball when the playoffs start.

BROWN

Traditional brown football color. Very durable with higher pebble but takes a little longer to break in.

RED

Traditional red color and is easy to break-in. Same as the PRO+ ball.

NATURAL

Lighter color, similar to the others but takes it easy on white jerseys.

LACE

PRO TACK +

Traditional sueded lace with a tacky feel. A very popular choice.

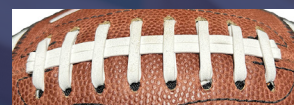

KR19

Sueded like Pro Tack but with a groove in the center for added grip and control.

PEBBLE

Very tacky lace with a pebble texture. Quickly becoming our most popular option.

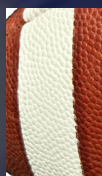

CLASSIC

Minimalistic lace with a low profile. Same as the PRO+ ball.

STRIPE

CLUTCH

Traditional football stripe. Flush feel with dependable grip.

SRS

Shape Retention Stitch sewn outside of clutch stripe. Helps hold the shape of the ball and adds friction for better grip.

OVERLAY

Composite stripe sewn on top of the leather. Creates max grip surface for the quarterback.

PATTERN

SUPER SLIM

Our most slim profile. Designed for the dual threat quarterback.

SLIM

Easily our #1 pattern. Battle-tested and has won countless titles.

PRO

Very full in the stripe area but college size. Designed for the pocket passer.

PRO+

Our largest size and full shape. For players with their eyes set on Sunday.

ADIDAS DIME

Drop Dimes. Own Every Throw.

Handcrafted in the USA by Big Game Football Factory, the adidas Dime is built with premium playoff leather for a soft, game-ready feel right out of the box. Pebbled lace and raised overlay stripes enhance grip and control, giving players the performance and confidence to execute in every phase of the game.
